CUSTOM LIFT ACCESSORIES

GUARDRAIL BUMPER PACKAGES

Bumpers are UV protected, non-marking and made from self-skimming polyurethane foam. The foam is abrasion resistant and locks out moisture. Material is available for a variety of guardrail shapes and sizes. Let us know the model of your lift or the size of your rails and we will put a package together just for you.

- Guardrail bumpers help prevent inadvertent damage to expensive products or equipment when working in tight areas!
- Guardrail bumpers help protect the lift from damage!
- Guardrail bumpers help protect the operator from injuring fingers or hands in the event of an accidental pinch point between the guardrail and an object!

CUSTOM LIFT COVERS

Does your lift sit outside in the weather or get splashed with rain and snow during transportation? Let us know the model of your lift or the over-all dimensions and we will create a tarp to fit your unit. Tarps are heavy duty and waterproof. They are custom made for easy installation and removal.

- Covers are heavy duty but easy to install with Velcro attachments!
- Covers will protect your investment and keep your unit looking good!
- Covers will reduce water intrusion and reduce repairs and down time!
